Summary

I am a highly motivated, self taught Web Developer with a passion for software development and learning. I embrace challenges, offer diverse experiences, and am an agile learner. I have just completed Industry Connect boot camp which gave me 300 hours of a simulated work environment, where I worked on several apps and learned a lot. I am excited to bring my passion for IT and my positive attitude of making clients happy from my hospitality background to the tech world.

Skill Highlights

TECHNICAL:

- Web Development
- User Interface design
- Application Support
- JavaScript (ES6), React.js
- Material UI
- HTML5, CSS3
- Bootstrap
- Node.js, NPM
- RESTful APIs
- SQL databases
- Git, GitHub

PERSONAL:

- **Team player** – In my previous career, I have been part of diverse teams where team work was paramount.
- **Problem Solving** – I love problem solving and code error finding, I always check logically about errors and deep dive into it to sort it out.
- **Fast learner** – Learned how to build complex designs for my personal projects in a short amount of time.
- **Works well under pressure** – A skill I perfected during my time in the fast-paced environment in the hospitality industry e.g. *handled 4 big functions at one time*.
- **Professional Communication** – In my previous work environment, good communication was the key asset to have as I had to communicate with different internal departments and fulfil clients requirement professionally for all events success e.g. *dealing with International French rugby team management*.

Experience

Portfolio <https://ganesh9211-dev.github.io/portfolio>

Full Stack .Net Developer (Intern)

March 2019 – August 2019
